

CAPE TOWN 16 - 17 MAY 2019

ABOUT THE WORKSHOP

The workshop will assist the architectural professional to maintain, develop and increase knowledge, problem solving, technical skills or professional performance standards regarding the application of the design requirements of the Water Services Act regarding Water Reticulation and the National Building Regulations regarding Fire Services (Part W). It will also address issues regarding rainwater and greywater harvesting and provide a preview of possible new legislation regarding water use in buildings.

The workshop will focus on the application of the regulations regarding water reticulation in buildings and will highlight the most important aspect of the following standards:

- Requirements for water reticulation of domestic buildings
- Water demand (cold and hot)
- Hot water generation, focussing on energy requirements and storage capacity
- Simple Pipe sizing and layout drawings
- Fire services drawings and calculations
- Rainwater Harvesting and storage tank requirements
- Greywater Harvesting

The workshop is validated by SAIAT as an Interactive Category 1 CPD event and participants registered with SACAP will earn 3 credits.

The workshop is a 2-day workshop that will start at 08:00 and end at approximately 15:00 on each day.

HAND-OUTS:
